Firemen Plan For Big Crowd At Whist Drive And Dance

Stage set for Annual Affair Friday
February 1st, by Moose
Community Hall

With a reputation for providing an evening of unexcelled entertainment at their annual whist drive and dance, the Bassano Fire Brigade plan this year to even exceed their previous years of former years.

The affair will be held on Friday evening next week, February 1st, in the Moose Community Hall.

The early part of the evening, starting at 8:30 o'clock, will be devoted to whist. Lunch will be served after the cards, followed by dancing.

In former years the "Firemen's" annual affair has attracted immense crowds, taking the capacity of the hall, and it is anticipated that the 1929 whist drive and dance will be as popular as those of preceding years.

The Bassano orchestra will play the music for the dance.

W. W. Parrott is in Hussar this week.

Mr. and Mrs. H. P. Ferguson, Miss Bonnie Ferguson, Mrs. W. H. Hawes, and Mrs. M. E. Ferguson accompanied Missed Ferguson to Gem last Sunday, where she is attending school.

Mr. and Mrs. Howard Ferguson each hailed their boys to town last week.

Mr. and Mrs. Harry Cowen were Sunday evening guests of W. A. Dingley last Sunday.

Mr. A. D. Ferguson was a Sunday caller at the Grosvenor home.

Mr. and Mrs. Howard Ferguson, W. H. Hawes, Mrs. A. D. Ferguson, and Mrs. M. E. Ferguson motored to Duchess and Brooke last week.

Mr. and Mrs. Geo. Goodie and family are ill with the flu.

Mr. and Mrs. M. E. Ferguson spent the week-end with the Max Gamble family.

Leonard and Clifford McDonald, of Hutton, were visiting friends in the Colony Sunday.

Owing to the cold weather, cow owners are having a hard time starting their cars. Mr. "A" unable to start his car, called in a neighbor.

Upon looking over the car, they found nothing wrong. "Are you sure you have gas in it?" asked the neighbor. "I can't see any sense of putting in gas until I can get it to go," he answered.

Annual Meeting Of Electors Friday Jan. 25

The annual meeting of the electors of the Town of Bassano will be held in the Town Hall Friday evening of this week, January 25th, at 8 o'clock in the Town Hall.

The auditor's financial statement will be read, and reports received from the chairman of the various committees.

Nominations for mayor, councillors, school trustees, and hospital board member will be made Monday, February 4th.

The following Monday, February 11th, is election day, if an election is necessary.

Bassano Juveniles Win From Brooks

(By Burton Ford)

The Bassano juvenile hockey team, in a game on home ice last Saturday afternoon, defeated the Brooks boys by the score of 5-4.

The local boys got well ahead in the first part of the game, the score at the end of the first period being 5-0.

A new "Goal Keeper" and forward arrived by car in time to play in the second period, and that saved Brooks from a more severe trouncing.

The teams were pretty evenly matched, but Bassano had the fast skaters who very easily got through the Brooks defence line.

The goal keepers for both teams played a fine game.

The lineup for Bassano was: Goal, Martin; defence, Hanson, Kay, Nelson; forwards, O'Neill Bros., Pope Bros., Bark, Stafford, Sturm.

Bassano: Goal, A. Ford; defence, Cadot, Stiles, Earl, B. Ford; forwards, Leonard, Clifford, McDonald, Gregor, MacLean, Scott, Wernke.

DEATH CALLS PROMINENT CITIZEN OF HUSSAR

HUSSAR, Jan. 23.—John R. MacDonald passed away at the Bassano Hospital at 4:40 p.m. on Saturday, Jan. 19th. He was born at Penbrooke, Ontario, on July 16th, 1867. He was a leading mason of Hussar at the time of his death, being a member and officer of Hussar Lodge A.P.F. & A.M., a member of the village council, and of the school board.

The death of Mr. MacDonald came as a great shock to the entire community, as it was understood that he was getting on as well as could be expected after his operation, and he was expected to be able to return home in a few days.

The most sincere sympathy of the whole community is extended to his widow and his children in their bereavement.

Brooks Team Too Strong For Bassano

Bears lose to Hard-Fought Battle by 5-4 Score

The Bassano senior hockey team lost another game to Brooks last Friday evening at the local rink. It was a hard-fought battle, and the Bears lost by only one point, with a score of 5-4.

Brooks has won every game of the four so far played with Bassano, but the Bears are not discouraged.

They hope to win the next game from the neighboring town.

Brooks has an aggregation of clever stick handlers, and a smooth working lineup with a combination play that wins many games.

Held a Dance

After the game last Friday evening the hockey club held a dance in the Moose Community Hall.

Although the crowd was not a large one those who did attend report a most enjoyable time. The Bassano Orchestra provided splendid music.

Mrs. Howe returned from the convention Sunday.

Mr. Selfridge and family went to Bassano Sunday to visit Mrs. Selfridge in the hospital.

A number of Gemites made a business trip to Bassano on Saturday.

Mr. and Mrs. Roy Robson are to be congratulated on the birth of a baby daughter, Trellis Mae, born in Vancouver on Jan. 12th.

A carload of coal was shipped into Gem on Monday.

Bull Benjamin and Mr. West were in Gem this morning.

Miss Weyron was a caller at Fortney's on Friday evening.

Mr. and Mrs. W. Perrott, of Cochrane, were callers at Williamson's and Fryberger's on Sunday evening.

The Gem school was closed on Tuesday because of the number of cases of measles and scarlet fever in the colony.

Missed Ferguson was the guest of the Gemites last Sunday.

The 17th meeting which was to be held on Jan. 26th has been postponed until the 1st of February.

Everybody come and hear the delegate report of the convention.

Chancellor

CHANCELLOR, Jan. 23.—On Thursday evening last week the Memorial Hall was the scene of a very pleasant gathering when on the eve of their leaving the Chancellor district Mr. and Mrs. F. Shillman were hosts to their friends and neighbors at a farewell social and dance.

Mrs. Hansen delighted the company with a few songs in her own pleasing style, and gracefully responded to the encore. Dancing was enjoyed by the guests.

There was certainly in wonderful form. They played with wonderful poise, and everyone thoroughly enjoyed the music.

F. McRobison also delighted at the piano. A delicious supper was served, and various speeches and songs filled an enjoyable supper hour.

Dancing continued to the late hours, but everyone reported as having thoroughly enjoyed themselves, and were sorry that the community was losing a good friend and good form.

The community on the Monday previous had presented Mr. and Mrs. Shillman with a pair of beautiful chairs.

CANADA'S WHEAT CROP EXCEEDS HALF BILLION

Bureau of Statistics Gives Figure as 555,571,000 Bushels — Total Value Exceeds \$45,000,000 Over Estimate of Value Made Public in December

OTTAWA, Jan. 24.—The estimate of Canada's wheat crop for the 1928-29 season made public yesterday by the Dominion Bureau of Statistics was placed at 555,571,000 bushels. This is an increase of almost 35,000,000 bushels over the estimate of November last, and almost 15,000,000 bushels less than the estimate announced in December.

The total value of all 1928 crops as compiled from yesterday's report shows an increase of 3,300,000,000 as compared with the estimate of values made public in December.

Yesterday's estimate of the wheat crop shows that Canada last year for the first time in its history passed the half billion bushels mark. In September the bureau estimated the crop at 540,000,000 bushels. After that, however, reports of frost and hail poured in and also criticisms that the bureau's estimate was too high. The estimate in November was 560,512,000 bushels.

Since November, however, the information coming to the department from the provinces showed that the crop was largely in good condition and that the season's threshing completed and much of the wheat already marketed, the Bureau of Statistics is in a position to fairly accurately fix its total.

Prompt Marketing

The more general use of combines, as well as the excellent weather last autumn enabled a much more prompt marketing of the wheat this fall than last. The peak of the marketing this year was reached in December.

The total for 1928 comprised 555,571,000 bushels from 12,136,516 acres against 439,712,700 bushels from 12,339,943 acres in 1927 and 439,679,640 bushels from 12,484,215 acres, the five year average. The average yield per acre was 24.8 bushels against 24.5 bushels in 1927 and 26.8 bushels, the five year average. For spring wheat the average yield per acre in 1928 was 21.2 bushels for 1927, and with 18 bushels the five year average.

Outs yielded in 1928 the total of 42,130,000 bushels from 12,136,516 acres against 43,712,700 bushels from 12,339,943 acres in 1927 and 43,679,640 bushels from 12,484,215 acres, the five year average. The average yield per acre was 24.8 bushels against 24.5 bushels in 1927 and 26.8 bushels, the five year average.

The barley yield in 1928 was 136,241,400 bushels from 4,907,700 acres against 96,000,000 bushels from 4,907,700 acres in 1927 and 96,000,000 bushels from 4,907,700 acres, the five year average.

The oat yield in 1928 was 136,241,400 bushels from 4,907,700 acres against 96,000,000 bushels from 4,907,700 acres in 1927 and 96,000,000 bushels from 4,907,700 acres, the five year average.

The rye yield in 1928 was 136,241,400 bushels from 4,907,700 acres against 96,000,000 bushels from 4,907,700 acres in 1927 and 96,000,000 bushels from 4,907,700 acres, the five year average.

The buckwheat yield in 1928 was 136,241,400 bushels from 4,907,700 acres against 96,000,000 bushels from 4,907,700 acres in 1927 and 96,000,000 bushels from 4,907,700 acres, the five year average.

The clover yield in 1928 was 136,241,400 bushels from 4,907,700 acres against 96,000,000 bushels from 4,907,700 acres in 1927 and 96,000,000 bushels from 4,907,700 acres, the five year average.

United Farmers of B.C. Will Enter Appeal For Better Freight Rates

Vancouver.—Backed by the United Farmers of the three prairie provinces, the United Farmers of B.C. will carry British Columbia's claim for better freight rates to the government in Ottawa.

The appeal has been prepared and forwarded to Ottawa by G. D. McGeer, K.C. The appeal involves three requests: That export grain rates on the Canadian Pacific Railway to Vancouver be reduced to the level obtaining at Fort William; that domestic grain and flour rates over both trans-continental lines be reduced to the level obtaining at Fort William; and the removal of the mountain differential in all freight rates covering the movement of all traffic into, from or through British Columbia.

Mr. McGeer will conduct the case at Ottawa when argument is heard. Mr. McGeer will continue his appeal to the board of railway commissioners for leave to appeal to the Supreme Court of Canada from the commissioners' decision on the matter of domestic grain rates.

Mr. McGeer announced his intention of appealing directly to the government in Ottawa before the board of railway commissioners. Later, however, when the board gave permission to Leon S. Lader, K.C., who represented the attorney-general of British Columbia, permission to make formal application for extension of time in which the appeal would be made, Mr. McGeer said that if the attorney-general was going ahead with the appeal he was also going to ask for the board to act on behalf of his clients to the supreme court.

J. C. McMillan, acting for the Canadian Pacific Railway, said the application was one that should be answered by the full board at Ottawa. H. W. Hamilton, attorney for the Canadian National Railway, supported Mr. McMillan's argument.

The chief commissioner, H. A. McKinnon, said that in view of the circumstances connected with the application, and the fact that no action had been given the railways, the application should be heard in Ottawa.

Great Increase Shown In Canadian Trade

Advances of Nearly \$25,000,000 During Last Nine Months

Ottawa. Canadian trade with the United States for the last nine months of 1928. The total of \$2,075,000,158 compares with \$1,772,000,821 for the corresponding period in 1927.

Figures were made available at the department of national revenue. Domestic exports were valued at \$1,077,047,161, an increase of \$124,642,767 over the comparative figures of \$952,404,394 in the previous year. The largest exports alone showed upward movement of \$1,000,000,000, new print and automobiles were substantially heavier.

Gigantic Wave Strikes River. New York. Leonardo Fiorini, cook, was killed and several other members of the crew were injured by a gigantic wave that surged over the bow of the White Star liner *Mauretania* on the crossing completed when the ship docked here. The wave, treated steel bulkheads, wet the masts, ruined part of the cargo and necessitated removal of 250 third class passengers to other quarters.

Gift For McGill University. Montreal. A grant of \$5000 has just been received by the McGill faculty of applied science from Walter W. Caplitz, of New York, to establish a graduate scholarship in civil engineering at the University in honor of Dr. John Donald Porter, renowned professor of mining engineering. Mr. Caplitz graduated in 1899 from McGill faculty of applied science.

Increase In Dairy Products. Fredericton, N.B. The value of cheese, dairy and creamery butter in Canada during 1928 will show an increase of more than \$1,200,000 over the preceding year. J. F. Singleton, chief of the dairy market division of the federal department of agriculture, told delegates to the New Brunswick Dairymen's convention in London here.

Farm Loan Board

Ottawa.—While no announcement has yet been made as to the personnel of the farm loan board which will be set up by Dr. J. D. McLean, former Premier of British Columbia, and presently appointed to the chairmanship of that body, the understanding in the capital is that Hon. E. C. Drury, former premier of Ontario and Boundary Commission, president of the Banque Canadienne Nationale, will be named.

GERMAN PLAN FOR NEW CRUISER IS PUBLISHED

Berlin.—Publication by the London Review of Reviews of the text of a secret memorandum in which General Gerner, German minister of defence, defended the necessity for the construction of a new light cruiser has caused considerable consternation in government circles here.

As the memorandum was known only to cabinet members and a restricted number of persons official quarters are at a loss to explain how the "leakage" took place and an investigation has been ordered.

It is considered in Berlin that there is no doubt the London publication was from the original text and the indignation of the press is increased because the memorandum was withheld even from members of the Reichstag, who are determined to investigate the government on the "scandal."

London.—William Steel, editor of the Review of Reviews, said that he read it in an ordinary way through a channel that is true and I satisfied myself as to its authenticity. They can make all the investigations they like as far as I am concerned.

Woman Leads Defence

In Murder Trial

Placed For Plea in Old Bailey, But Failed to Receive Acquittal

London.—Miss Venita Stephenson failed to secure acquittal at the central criminal court of the first man she had defended on a charge of murder, John Henry Ward, aged 24. The jury without much delay returned a verdict the prisoner was guilty of the murder of his grandfather, but the death sentence was commuted to life imprisonment by the Home Secretary.

Miss Stephenson eschewed any attempt at rhetoric. "I am fighting this young man and I will do my utmost to free him," she said.

Railroad Wreck Was Caused by Drunkenness

Romanian Train Over Runess

Turnavese, Romania. Railroad inspectors said that drunkenness on the part of the engineer and crew of the Bucharest-Frasin express cost the lives of 11 persons. In addition to the fatalities about 30 were passing over the bridge at Frasino, near here, when the express crashed into a head train which had been derailed.

The express was plunging along at 50 miles an hour in the dead of night when the crash occurred. The engine of the express, which was heavily laden, was apparently knocked off its rails by the derailed train.

As the memorandum was known only to cabinet members and a restricted number of persons official quarters are at a loss to explain how the "leakage" took place and an investigation has been ordered.

It is considered in Berlin that there is no doubt the London publication was from the original text and the indignation of the press is increased because the memorandum was withheld even from members of the Reichstag, who are determined to investigate the government on the "scandal."

London.—William Steel, editor of the Review of Reviews, said that he read it in an ordinary way through a channel that is true and I satisfied myself as to its authenticity. They can make all the investigations they like as far as I am concerned.

Manufacturers' Ass'n Ask Government For Further Tax Reductions

Hamilton, Ont.—The report of the special committee on taxation was presented at a meeting of the Canadian Manufacturers' association, which recommended that the government of a method to avoid "double" and in many cases "triple" taxation, which, it was held, occurred through taxation of net earnings of corporations and the personal income tax, which applied to dividends, distributions of the personal income tax, and the final abolition of the sales tax, and a reduction in the excise taxes on finished goods were other recommendations.

An important closed meeting of the council of the association was held at which over 200 taxpayers from all over the Dominion were present. A luncheon was also held, when St. Joseph's, Toronto, spoke on "Subsidized Taxation." He said that the government would advance a like amount. It is for us to accept the challenge, said P. P. Murphy, president of the association.

Asks For Government Aid

Red Cross Society, Requests Contribution Towards Its Support

This Year.

Ottawa.—Since the war the total disbursements upon Red Cross activities throughout Canada have amounted to approximately seven million dollars. The cost of the national aspect of this work has been \$307,269, and this has been met entirely from the capital funds of the society.

The above facts are among a large number comprised in a brief which was presented to Premier Mackenzie King and Hon. James A. Robb, minister of finance, by a delegation representing the Red Cross Society. The delegation came to Ottawa to ask for a contribution of \$25,000 for its support this year.

Premier Mackenzie King, while expressing his personal sympathy with the Red Cross and appreciation of what the society has accomplished, expressed the opinion that there was a danger in government assistance to such an organization as the Red Cross. The danger was that the people, upon which it must depend for its support would become indifferent and fail to contribute when government backing was withdrawn.

Mr. King assured the delegation that he would place its brief before the cabinet and that he would do his utmost to see that it was not lost, but that he must not feel that his remarks were intended merely to discourage.

SCOTLAND'S HARD

On Friday, the 25th day of January, Scottish people all over the world, and many people who are not Scottish, but who love the past and the beauty and simple grandeur of his works, will celebrate the 10th anniversary of the birth of Robert Burns.

"An honest man tho' e'er saw poor, Is king o' men for a' that."
In these words is seen the extension of a noble character who stood heart and soul for liberty, justice, and right. He was no coward. His writings show his deep sympathy with the struggles and sorrows of humanity.
That is one of the great things about Burns. He was intensely human. He lived for humanity. He wrote for humanity. And he put his thoughts into simple and beautiful language that is beautiful and inspiring.

A WHEAT KING

P. W. Billings, of Hanna, is called the "wheat king" of his district. This sobriquet was conferred upon him following his winning of second prize for registered Maquis wheat to Zone 1 at the Provincial Seed Fair in Edmonton.

A few years ago the Hanna district was unknown as a prime wheat growing area. Today it has something of a reputation in that line. Hanna was put on the prize wheat growing map by the efforts of the Kiviana Club. This organization sponsored a registered seed grain, and for the purpose of growing prize grain. Although launched only two years ago the efforts of the association have already been rewarded in the success achieved by Mr. Billings and other members of the association.

The Hanna district area is recommended for these reasons. Their achievement is an example of what could be accomplished in the Basins, Mainland, and other districts where the climate and soil conditions are just as favorable for the growing of prize grain as those of the Hanna district.

VIKINGS OF THE AIR

The Vikings of old are believed by many to have been the first white men to set foot on the North American continent. They were great fighters and wonderful seamen, and in their longships they travelled over many an uncharted sea on voyages of discovery. Breasting the stormy waters of the north Atlantic they visited Greenland, Newfoundland, and touched the shores of Canada. And now a modern Viking, in the person of Capt. A. Abren Berg, a Swedish aviator, plans to follow the trail blazed by Leif Erikson and his hardy Norsemen. But Berg will travel by air. With a specially built plane he will cross by way of Iceland and Greenland to Labrador, and then south to New York.

Discovery and science have simplified what were once feats that required great courage. But the spirit of adventure did not die with the old Vikings. It still flourishes in the breast of many a modern youth, and for these adventurous spirits there is still opportunity to satisfy their desire.

EXPANSION JUSTIFIED

Some months ago the Bassano Municipal Hospital built a nurses' home and an extension to the hospital. The members of the hospital board were justified there was a crying need for more hospital accommodation, but they had a most difficult task in convincing the department of health.

The hospital accommodation is now, and has been for some weeks past, almost taxed to capacity. Every bed in the building is in use. The nursing staff has been increased to care for the larger number of patients admitted to the hospital. The present accommodation is so greater than the need required, and may even prove inadequate in a short time.

Auntie: "I notice your dolly doesn't cry 'mammas' when she is squeezed now."
Modern Child: "No, Auntie; but you forget this is her second season out."

Loty: "She swears she has never been kissed by any man."
Loty: "Well, isn't that enough to make any girl swear?"

This bit of verse might well apply to the bad lands of Stoverville.

THE BAD LANDS OF DAKOTA

(by Mary Frances Martin)

I think that when God made the bright, fair land,

And lifted mountain peaks against the sky,

He found one plain, unfinished, still at hand—

One vacant space across the world did lie.

And thought of us, and shaped that beauty rare.

Only an Officer

A witty after-dinner raconteur recently told a delightful little story concerning a schoolboy who, at an examination in freeland drawing forgot to bring with him a pencil, as was laid down in the regulations. He was promptly taken to task by the examiner, who demanded:

"What would you think of a soldier without a gun?"

"Why," stammered the boy, "I think he was an officer."

Just then the sunset lit its curtains full—

Amber and jade, and rose and orchid hue.

Till the drops of colors clinging to battle and wall

Made a perpetual sunset in the sunlight,

'Twas thus it happened this mystic marvel grew,

Time's wonderland endowed beyond compare;

I like to think, when all the world was new

God thought of us, and shaped that beauty rare.

Little Emily had been to school for the first time.

"Sweet darling, and what did you learn?" asked her mother.

"Nothing," sighed Emily, "I've got to go back tomorrow."

A Safety Measure

Florist: "Want to say it with flowers, eh? About two dozen, sir?"

Floristman: "No, about six—I don't want to say too much."

"What's the idea of a suitcase, Jim—going away?"

"No; I heard the church was giving a rummage sale, and I'm taking my duds down to the office until it's over."

Expert Advice

Giving advice to a young suitor who was at arms for the first time, a British officer said:

"Now take my advice, my lad. Keep your eyes on those two candlesticks, and when they appear as four you'll know you've had enough, and that's the time to slip quietly away."

"Thank you very much, sir," replied the young officer; "but I can only see one candlestick at present."

The "Burbank"

The Best Value in Ranges

The Burbank is a handsome, high grade range, built for long, hard, and perfect service such as is required in town and country homes.

Its appointments are as perfect as stove-craft can make them. A roomy, high warming closet, with a roll back door; the smoke pipe concealed behind the enameled splash back; the cooking top polished, and of key plate construction; the fire box is extra large, with heavy, grey iron linings; extra large oven, heavy drop door, and accurate oven thermometer.

WORLD HAPPENINGS BRIEFLY TOLD

The symphonic band of the Royal Belgian Guards, numbering 80 musicians, will tour Canada in April.

The United States would probably participate in a conference to study the German reparations situation if a suitable invitation were received.

Charged with plotting against President Moustafa Kemal, eleven persons, including four women, were arrested in Istanbul.

Christmas greetings to Hudson Bay ships frozen in the ice of the Arctic were extended from the capital by the radio beam of the department of marine.

Said to be the Great Britain's largest playhouse, the theatre soon to be erected on the site of the Pavilion, Whitehall road, London, will have accommodation for 5,200 people.

The United States has consented to the request of European powers that they be permitted to select American experts to serve on the commission which is about to revise the Dawes reparations plans.

Hon. Lewis Stans, Union House, chief minister of Saskatchewan, has not a few New Brunswick acquaintances to each member of the Empire Far-Parliamentary Association from Britain and Newfoundland who travel Canada this year.

The old custom, prevalent in the south, of celebrating Christmas as well as the fourth of July with fire works, cost the lives of four children at Hazard, Kentucky, when a fire cracker, tossed in fun, landed in a cut of a building.

The extreme Communist organ Voltaire says that it had been learned from Moscow, that Joseph Stalin had allowed Leon Trotsky to go to a health resort in South Tyrol to recover from malaria, from which he had been suffering for some time.

World's Largest Medal

Awarded To Edmonton Man By Government Of China

The owner of the world's largest medal has been discovered after a search of many years, conducted by scientists interested in such things. Tom C. Douglas, of the Edmonton office of the Soldier Settlement Board, is the man.

It was for performing the last rites for a party of Chinese road workers, killed in France while they were working on a spot selected by a night-flying Gotha to lay its eggs that Mr. Douglas won his medal.

Serving with the Canadians, the Edmontonian was commanded to enter the dead Chinese, which he did with a delivery address that won the admiration of all beholders.

A few months after coming back to the city, Mr. Douglas received a huge parcel. It turned out to be a medal, about one foot across, with a couple of yards of red ribbon on it and covered with Chinese characters. A letter with the parcel explained that it was a gift from the Chinese government, which government, is not quite clear as to whether it is a medal or a reward for the privilege of burying the dead Chinese in France.

Unfortunately, owing to its weight and size, Mr. Douglas has never been able to wear the medal.

Why She Was There

"If I had been here for a while," was mused into McTavish's ears from morning till night by his most unattractive wife. The poor man was paying heavily for the privilege of marrying a woman with a "fat dowry."

Being a first-topping man in the local monthly market, he rode the animal home, and immediately on his arrival he called to Margaret to come and see the "fat dowry." "She's a real beauty, McTavish," shrilly admitted his wife, "and if I hadn't been here for my money she would have been here."

"Till she's got you," angrily exclaimed the husband. "If I hadn't been here for my money she would have been here!"

"Depends On The Teacher"

"I don't understand," said a farmer, after watching with undisciplined eyes a series of tricks performed by a peacock's dog. "Here is this month-old yearling doing all these clever things, but there is my dog, with a pedigree a yard long, can't be taught a single thing!" The hammerer at it all the first of things. "You won't learn even the simplest tricks!" "Well, sir, 'tis so much the dog's," the peacock barked indignantly. "You have to teach me'n he does, or you can't learn him anything!"

Washed Eggs No Good For Storage

Experiments, Show It Destroys From Their Hatching Quality

Experience has shown that washed eggs are suitable only for immediate consumption, and will not stand up under storage conditions for any length of time. Although the washed eggs may get by for a short time, and be quite acceptable on the fresh egg market, the inferiority is immediately evident after a period of storage. Experiments carried out at several Dominion Experimental Farms have shown that clean eggs which grade 75 per cent. specials, and 25 per cent. extras, before storage, graded 85 per cent. extras, 12 per cent. specials, and 3 per cent. weak and watery after six months storage. Dirty eggs grading similarly when placed in storage came out practically on a par with the clean eggs. Washed eggs, however, stored under similar conditions graded only 25 per cent. extras, 21 per cent. specials, and 51 per cent. weak and watery, or nearly 50 per cent. inferior to both the clean and dirty eggs.

Evidently the washing of eggs detracts from their keeping qualities to such an extent that it may be considered as such. By washing them by cleanliness and sanitation on the poultry plant to avoid the production of dirty eggs, which if stored, will be of inferior quality to the market.

The last inspection policy was used on June 18, 1938, on the life of the Winnipeg Union.

Planning Second Atlantic Trip

Commander Is Anxious To Retain Criticism Of Graf Zeppelin

The Hamburg correspondent of the Telegraph Union quotes Dr. Hugo Eckener as saying that the Graf Zeppelin will make another transatlantic flight in order to retain criticism that have come from various sources, particularly from Friedrich Gihlman, who was one of the American passengers when the big ship travelled from Friedrichshafen to Lakehurst.

Dr. Eckener was quoted as saying that the dirigible was not wholly faultless, but that she was not so bad as her critics have painted her. No date was mentioned for the second visit to the United States. It might come anytime before the spring of 1939, when the Zeppelin is under contract to carry Friedrich Gihlman to the United States.

Mr. Gihlman's criticisms of the voyage to the United States were not without foundation. He expressed dislike of the accommodations on the dirigible and of the treatment accorded passengers, as well as doubts of the airship's safety. He was one of those hard hit by the "no-smoking" regulations.

Russia Responsible

For Chinese Revolt

Soviet Agents Said Foundation Says Governor Of Hong Kong

Addressing the Canadian Club at Vancouver, Sir Cecil Clementi, governor of Hong Kong, described the Russian revolution in China, the foundation of which he said, had been built by Russian Soviet agents. It was the Russian revolution, which set the Chinese about driving British from their soil. British prestige once had been revived and it has now been officially announced that China desired to see British trade prosper in that country, he said.

Sir Cecil spoke of the need of understanding the Chinese if British merchants and diplomats were to succeed in the far east. He said that the Chinese were not so much a race as a people. He said that the Chinese were not so much a race as a people. He said that the Chinese were not so much a race as a people.

Little Helps For This Week

"Choose your own way when you will serve." Joshua xxiv. 15.

But heard are the voices, "Choose well, your choice is brief, and yet endless; Here you are regarded in eternity's audience; Here is all fulness; You have, or reward you; Work, and despair not."

John, the Evangelist, said: "You must choose whom you will serve. You cannot serve God and mammon. You cannot be a friend of the world, a friend of the flesh, and a friend of the devil at the same time. The way is narrow and rough, and there is no use saying it is not; but depend upon it, there can be no saving religion without sacrifice and self-denial—Kyle."

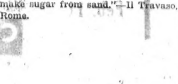

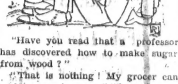

Find Ancient Racer The ancestor of all racers is believed to have been dug out of a sand pit at Montreux-les-Amiens in the Somme Valley. Its edge is rusted and its other otherwise the straight, wooden glade would be as good as new with honing. It was uncovered by the French archeologist, Dhervieux, and he is believed to be the oldest glade shown declare it to be 10,000 years old.

Deer are so numerous in U.S. national forests in West that they are in danger of starvation. "Your majesty, the piousness has been in the pot 66 hours, but he won't cook." "And he said all death is weak."

TIME TO THINK ABOUT SEED GRAIN

(Experimental Farms Note)

While admitting the importance of high fertility and good cultivation as essential for a good seed bed, let us not forget the importance of sowing good seed, pure as to variety, free from weed seeds, of high vitality, and which has been treated for smut.

The time never was more opportune or more ripe for the necessity of sowing pure seed than it is today.

With the ever-increasing seed problem, and the multiplicity of varieties that are on the market, the time is at hand when we must sow pure seed, if we expect to reap the highest returns from our farms.

The wide-awake farmer does not wait until the last minute to prepare and clean his seed, and will always be found ready when seedling time arrives, to sow seed that has been cleaned, of good germination, and which has been treated for smut.

The practice of the Modern Experimental Station in regard to seed grain is to clean all grain, intended for seed purposes shortly after threshing, and to forward two-pound samples to the Dominion Seed Branch in Winnipeg for grading and germination test.

With the long winter days at hand when the farmer has ample time to spare, why not crank the little gas engine, start the fanning mill going, get the seed grain ready, and be prepared for the big rush in the spring.

For those farmers who are intending purchasing seed grain, now is the time to get busy. Don't delay, but secure your seed early, then you will have no worries about seed grain when spring opens up.

In a seed survey made in Manitoba, one farmer was sowing seed supposed to be Marquis, but upon analysis only 60 per cent was Marquis, while the other 40 per cent consisted of weed seeds, and other variety of grains.

We cannot hope to produce grain that will maintain our high standards in world markets if more attention is not given to the seed we sow.

Again the schoolboy outgrows his clothes. Publishing circles report the expenditure of the Family Herald and Weekly Star of close upon a half million dollars for huge new printing presses to cope with their fast-growing subscription list. At their new low subscription rate of three years for \$2.00 one is prompted to ask "How long before they outgrow this one?"

"Why are you wanting that black eye, Hennessey?"

"Says, it's mourning for the man that gave it to me."

The only really National Farm Journal is the Family Herald and Weekly Star, Montreal. It has as many readers in Nova Scotia as in Saskatchewan, and is in its new form the talk of the Dominion.

BASSANO CURLERS DOING WELL AT CALGARY SPIEL

The two risks of Bassano curlers playing in the Calgary Spiel this week are doing well, particularly the E. P. Currie risk. Currie's risk consists of himself, Irvine Young, Leo Newby, and Dr. A. G. Scott. The other risk is, L. F. McDonald, M. E. Granlund, A. P. Pearson, and Arlie Simpson.

After going fairly well at the start McDonald was knocked out of the open competition, but still plays in the consolation. McDonald won this event last year after losing out in the other competitions.

The Currie risk is still going strong, and Thursday night were still in three competitions, the Purity Flour, the Brewery, and the consolation.
